Languages / Frameworks: Golang, Terraform, Python, Java, HTML/CSS, Bash, Javascript (Node.js, Vue.js), PSQL
Tools / Methodologies: Git, Agile, Unity Engine, ISE Design Suite, Atmel Studio, Amazon Web Services (AWS)

Experience

Toast
Boston, MA
SOFTWARE ENGINEER 2   *September 2022 - February 2024*
- Collaborated to lead development on reimagining Toast's **CICD pipeline** using **Golang, Terraform, and Rego**
- Joined the team to develop a **grassroots workflow orchestration engine** to be used by Toast developers in all LOB's
- Utilized **ECS, Cloudwatch, and Splunk** to effectively host our workflow orchestrator server and output verbose logs
- Led development for a **git webhook receiver service** that with **API Gateway** and **Lambda**, received **600+ requests/min**
- Developed multiple **Golang plugins** that effectively emulated a **Jenkins pipeline**, but with **improved flexibility**
- Successfully reduced **operational and administrative load** for developers in the InfraEng organization for tasks like **manual PR checks and automated deployments** using **Golang plugins** and **Rego**

Capital One
Richmond, VA
SENIOR ASSOCIATE SOFTWARE ENGINEER   *August 2021 - June 2022*
- Received a **promotion** at the **1 year mark** of the new grad program, achieved only by the top **10%** of the cohort.
- Rotated to a new team to work on **platform support** for Capital One's **Case Management System**.
- Maintained **multiple API endpoints** in **Java** that allowed Capital One agents to **create, update, and delete cases**
- Utilized and interfaced with **AWS DynamoDB** to store all relevant case details, sending over **30,000+ requests/day**

Capital One
Richmond, VA
ASSOCIATE SOFTWARE ENGINEER   *August 2020 - August 2021*
- Spearheaded multiple UI projects in **Vue.js** for **Empath**, Capital One's internal call center software, for **13,000+ agents**.
- Migrated **10,000+ agent documents** to a more user friendly UI using **iframes** that also allowed for searching and sorting
- Received kudos from leadership up to the **Senior Director level** for my work on the Vertical Notes project, which aimed to (and successfully) **reduced average daily call time** for agents, resulting in **$1MM+ savings** for the company annually

2Axion
Cerritos, CA
SOFTWARE ENGINEER INTERN   *June 2018 - September 2018*
- Spearheaded **development** and **design** decisions of a 3D mobile racing game using **Unity (C#)**.
- Worked with the artist team to create **custom sprites**, resulting in **4 unique racetracks** and **10+ model racing cars**.
- Collaborated with the in-house teams to deploy other **Unity** projects on platforms reaching **10,000+ users**.

Milton Security Group
Fullerton, CA
FULL STACK SOFTWARE ENGINEER INTERN   *June 2014 - August 2014*
- Implemented an iOS app to search for local **WiFi** and **Bluetooth** servers for the company product using **Swift**.
- Deployed **front** and **back-end** modifications on the **company website** using **PHP, HTML, and CSS**

Activities

Nikkei Student Union (NSU), Intercollegiate Nikkei Council
Riverside, CA
TREASURER   *June 2016 - June 2017*
- Managed the **financial** and **social** affairs of **12** Southern California NSU schools, totaling over **1,000 members**.

UCR Highlander Newspaper
Riverside, CA
CONTRIBUTING WRITER   *Sept. 2015 - June 2017*
- Gathered information on **diverse subjects** to publish and proofread others' drafts.

Education

University of California, Riverside
Riverside, California
B.S. IN COMPUTER ENGINEERING   *2015 - 2020*
